

Consolidation and Distribution

Reliable, flexible, cost-effective solutions
you can count on

A YRC Worldwide Company

Consolidation & Distribution Service

Reliability and flexibility, designed for you

Holland Consolidation and Distribution services can improve the efficiency of your supply chain by eliminating delays and reducing costs associated with shipping and warehouse storage. Take advantage of our network of strategically placed and highly efficient service centers, the latest in technology, and an experienced and caring workforce to create strategic, cost-effective solutions that meet your individual requirements.

With Holland, You Can:

Improve Your Service

Holland Consolidation and Distribution services enable you to maintain a smooth and efficient flow of products to and from your business, your customers and your suppliers. We can customize a solution that adds efficiency by supporting distribution-bypass strategies. Our solution flexibility allows products to flow directly where it's needed in response to the changing market conditions. We provide:

- Comprehensive Midwest, Southeast U.S. and Eastern Canada regional coverage
- On-time reliability
- Fast transit times for quicker delivery
- Accurate and timely information
- Single-source control
- Customized transportation solutions
- Professional handling

Reduce Overall Costs

Time is money. At Holland, we understand how important it is to help you save both. That's why we strive to offer you a better overall value with:

- Decreased transportation and warehouse costs
- Faster inventory turns for improved cash flow
- Fewer delivery exceptions and claims due to reduced handling
- Compressed order cycle time
- Simplified paperwork

Enhance Customer Satisfaction

What you want . . . When you want it . . . Where you want it.

That's the formula for keeping your customers satisfied. Holland delivers on all three and does it by providing better overall service.

What is Consolidation and Distribution?

Consolidation service provides for the delivery of your goods departing from many origins within a geographic region and delivering to one destination (many to one). A customized solution for consolidation service may translate to LTL pickups from multiple origins, which are then consolidated into one truckload shipment to move to the single destination.

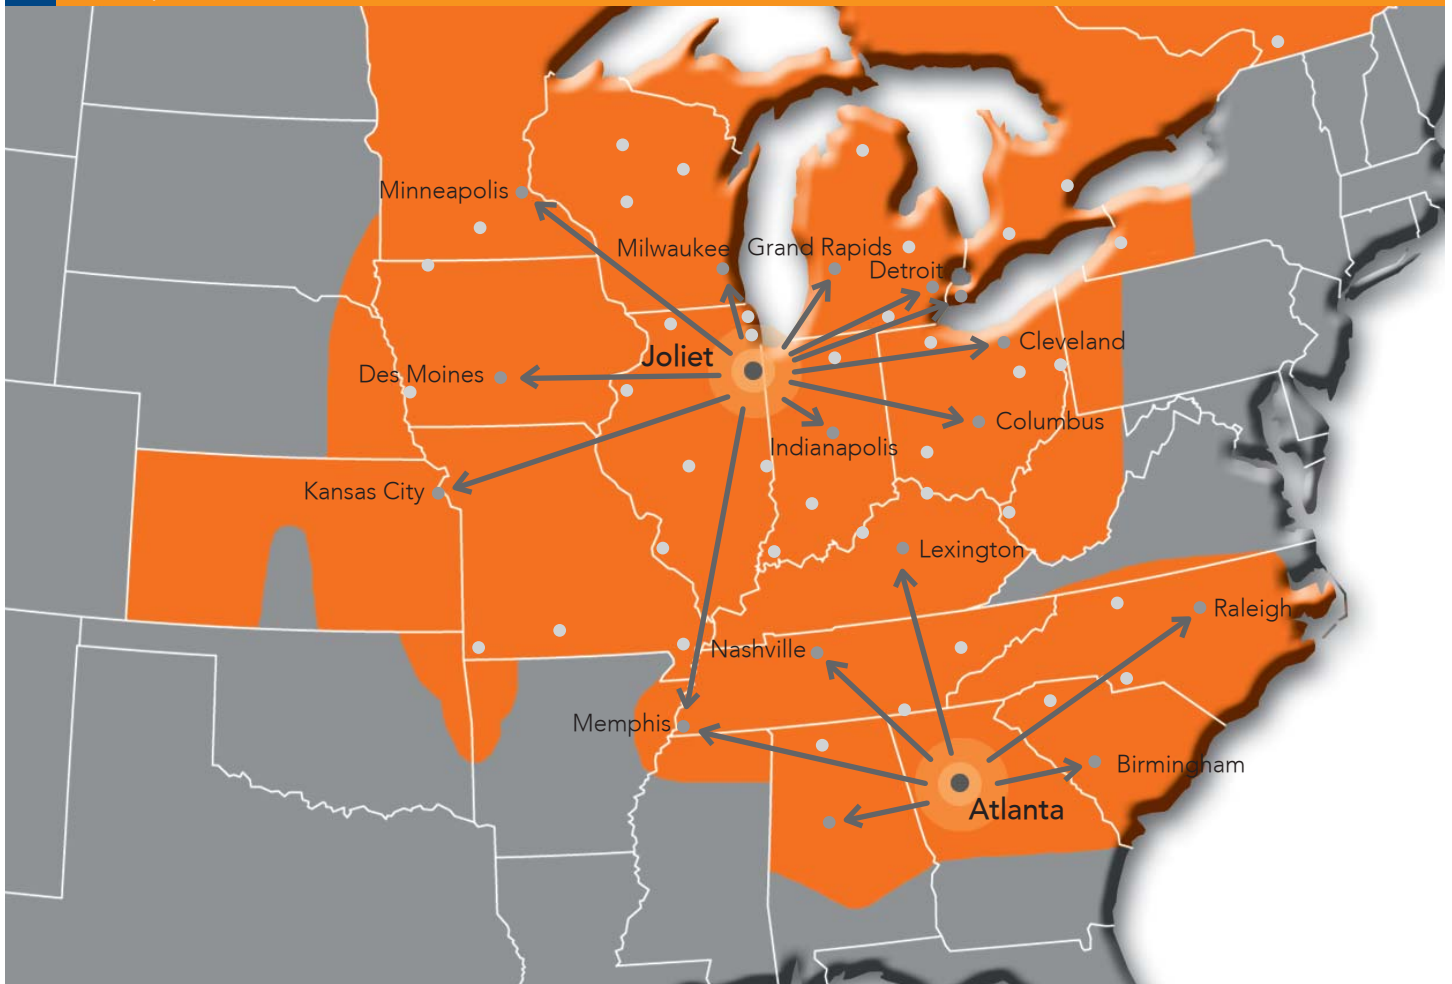

Distribution services provides for the delivery of your goods departing from one origin and delivering to many destinations within a geographic region (one to many). A customized solution for distribution service may translate to a truckload move (or partial truckload move) of multiple LTL shipments from the origin to a service center, where the freight will then be distributed via LTL to multiple destinations.

Is Consolidation or Distribution service right for me?

You should consider the advantages of Consolidation and/or Distribution services if you:

- Have multiple inbound suppliers/vendors or outbound customers within a regional area
- Have sufficient volume moving to or from any region of the U.S. (for Consolidation service, the preference is one full truckload of multiple LTL shipments per week)
- Currently use multiple long haul LTL carriers
- Utilize a private fleet to transport your products and want to eliminate multiple stop deliveries
- Want to reduce order cycle time and get your products to your customers 1 to 3 days sooner
- Are searching for a way to reduce inventory and overall costs and better manage your supply
